## IMPLEMENT BUSINESS SHOWS BIG INCREASE

Sales During the Past Three Months Range from 55 Per Cent. to 25 Per Cent. More Than During Same Period of Last Year

A study of the business conditions in the towns and districts tributary to Edmonton reveals a general era of prosperity in the extensive area in which this city is the commercial center. The property in many of the towns in the city but also all along the various railway lines leading in and out of Edmonton.

To get some idea of the agricultural development of the territory which is more directly tributary to the city of Edmonton, the Bulletin yesterday interviewed the various implement dealers and asked them how the implement sale for January, February and March, 1911, compared with the same months of last year. Those firms which had general distributing offices here have reported a large increase in the large surrounding districts last year.

A local agency here but now a branch office of the same month of last year. The local agencies in the large surrounding districts last year.

One retail dealer after comparing the business of the past three months with that of the same three months of last year said that the increase in each month was as follows: 75 per cent. for January, 25 per cent. for February and 25 per cent. for March. There were more cash sales this quarter than formerly.

Indicated a prospective era of the farming district.

The implement sales of the local agencies in the large surrounding districts last year.

Another firm of local implement dealers reports that the implement sales for the first three months of 1911 show an increase of 25 per cent. over the same months of last year. This is practically the same as the increase in the first three months of last year.

The increase of 25 per cent. in the first three months of 1911 shows an increase of 25 per cent. over the same months of last year.

Still another company reports an increase of 25 per cent. in the first three months of 1911 shows an increase of 25 per cent. over the same months of last year.

Wholesale travelers report collections during the first three months of 1911 show an increase of 25 per cent. over the same months of last year.

But the increase in implement sales is probably due to an increase in agricultural operations. With favorable weather conditions this season more grain, more hay and general increase in all business.

## CANADA BOND BETWEEN BRITAIN AND THE U.S.

This is the Position Which Dominion Should Occupy Says Dr. J. A. Macdonald to Winnipeg Canadian Club—Joseph Ward Also Speaks

Winnipeg, April 6.—Sir Joseph Ward and Dr. J. A. Macdonald both spoke at the Canadian Club of Winnipeg this evening. The attendance being the largest in four years. Sir Joseph discussed Canada's duty as a nation, declaring that while he was strongly imperialist, he did not intend to suggest, as had been credited to him, a central imperial control for affairs of the overseas dominions but he said he believed each of the governing over dominions should be prepared to undertake the increased burdens for Empire defence.

Dr. Macdonald, discussing the "disaster in my mind" of Canada's duty as a nation, declared that he was in strong in my own attitude of Canada, which he was recently accused by a prominent citizen of the United States, who expressed surprise at the great loyalty of Canada to Great Britain, which he seemed to increase with her independence.

Referring to the relations between Canada and the United States, Dr. Macdonald declared that duty was to stand as a bond between the mother country and her greatest daughter, United States of America. A phrase which was received with enthusiasm by the audience.

"At I know of Canada is that all the best people of my constituency are moving up there."
